

Senior Reservoir/Acquisitions Engineer

Denbury Resources Inc. (DNR) is a growing independent oil and gas company. The Company is the largest oil and natural gas operator in Mississippi, owns the largest reserves of CO2 used for tertiary oil recovery east of the Mississippi River, and holds key operating acreage in onshore Louisiana, Alabama and Texas Barnett Shale areas. The Company increases the value of acquired properties in its core areas through a combination of exploitation drilling and proven engineering extraction practices.

Denbury is currently looking for one exempt **Senior Reservoir/Acquisitions Engineer** in our Acquisitions Department in the Plano, Texas office. The position will report to the Vice President – Business Development and will require some travel. The Senior Reservoir/Acquisitions Engineer will be responsible for field studies and acquisition support in Denbury's core regions (Gulf Coast Texas, South Louisiana, Mississippi and Fort Worth Basin).

General Duties:

- Provide reservoir engineering support to a multi-discipline acquisitions team in the review of acquisitions and study of mature oil fields. The acquisitions team consists of geology, land, legal, accounting, operations, etc.
- Estimating reserves and forecasting for property acquisitions.

Educational/Industry Requirements:

- Minimum BS in Engineering with a preference in Petroleum Engineer.
- 10+ years active industry experience.
- Prior acquisitions experience and a working knowledge of Aries is a plus.

Qualifications:

- Strategic thinking and economic analysis skills.
- Advanced level data analysis skills.
- Good team and interpersonal skills with the ability and desire to work within a multi-disciplinary team.
- Independent, self-motivated, organized, creative and results oriented.
- Ability to handle multiple projects with assigned deadlines.
- Strong communication and presentation skills with the ability to work directly with all levels of personnel, including executive management.
